FERRO-PREIS
FOUNDRY

DECLARATION OF RECYCLED CONTENT

In accordance with the social responsibility, Ferro-Preis d.o.o. feels a commitment to the community and society, therefore it makes significant effort to promote the recycling of materials which leads to smaller impact on the environment, saving natural resources, energy and directly reduces the consumption of primary raw materials. Recycled content is defined in accordance with ISO 14021:2016.

Foundry Ferro-Preis d.o.o. uses the process of melting raw materials in industrial, induction electric furnaces where liquid metal is obtained from recycled materials, and produced into a functional cast iron product.

Products made in the foundry Ferro-Preis d.o.o. contain recycled content, procured regionally, in proportion

more than 65%

The content of this declaration is limited exclusively to the products produced at our location.

Prompted by the desire to achieve production that would make a product from 100% recycled material, most of the procured material is secondary material. In the production process of Ferro-Preis d.o.o., material is recycled into a new functional, environmentally friendly products that are 100% recyclable in unpainted design and 99% recyclable in painted design.

Product groups covered by the self-declaration:

1. SML/KML/BML – pipes and fittings - PREIS® Drainage Systems
